

DENTAL CARE

- Taking care of your baby's first teeth are an important step in having healthy gums and adult teeth
- For information on tooth development, oral hygiene and how to avoid early dental caries, please go to:

https://www.caringforkids.cps.ca/handouts/healthy_teeth_for_children

- All children should see a Dentist for routine dental care. Your child can see your family dentist or if you prefer, your child can be seen by a Pediatric Dentist. [Click Here](#) is a list of the Pediatric Dentists in Calgary.
- -Dental care is not covered by Alberta Health. Most private insurance plans have coverage for dental care. If you do not have insurance and cannot afford to pay for dental care on your own, there are some dental services available in the community at a reduced rate. For more information, please go to:
